Single LED Wall Sconce

WS2812

INSTALLATION SHEET

Please Note:

• All Kuzco LED fixtures come with pre-wired LED module(s).

• Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.

• For dimming, an ELV (Electronic Low Voltage) dimmer is required.

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-855-855-8926

1. Remove the fixture from its original packaging. Remove the canopy mounting plate (1a) from within the canopy and attach it to the electrical junction box on the wall (1b), using the two screws (1c) provided in the hardware package.

2. Attach all wiring (2a) with the provided marrets (white to white "N", black to black "L", ground to ground "G").
Level the fixture. Using the two holes in the mounting plate (1a), create registration marks on the wall. Turn canopy mounting plate away from registration marks and drill appro-prate holes into wall. Now mount the plastic anchors (2e) into holes on the wall.
Turn the canopy back to align canopy holes to plastic anchors, secure with scews (2b). Attach the fixture (2c) to the mounting plate (1a), using the set screws (2d).

3. You have now completed the installation of your fixture, please enjoy.
